

Employee Handbook

NovaTech Solutions Pvt. Ltd.

Policy Document Code: NTS-HR-001

Internal Company Policy

This document contains fictional policy information created specifically for an academic Enterprise RAG project. It does not represent a real company's policy.

1. Company Overview

NovaTech Solutions Pvt. Ltd. is a fictional mid-sized technology company created for the Enterprise Generative AI Engineering Programme. The company develops software products, cloud solutions, analytics platforms, and technology services for business customers.

The company expects employees to perform their responsibilities with professionalism, integrity, respect, accountability, and a commitment to information security. Employees are expected to understand the policies that apply to their role and to seek clarification from HR or IT when necessary.

- Employees must follow applicable company policies.
- Employees should protect company information and assets.
- Employees should communicate respectfully with colleagues and customers.
- Employees should report policy violations through the appropriate channels.

2. Company Values

NovaTech promotes integrity, customer focus, collaboration, inclusion, continuous learning, and responsible use of technology. Employees are expected to make decisions that support these values while carrying out their professional duties.

Employees should raise concerns when they identify behaviour that may create a conflict with company values, legal obligations, or internal policy.

- Integrity in business and employee interactions.
- Respect for colleagues and customers.
- Responsible handling of company information.
- Continuous improvement and professional development.

3. Employee Onboarding

New employees complete an onboarding programme covering company values, employment procedures, information security, acceptable technology use, and key HR policies.

Employees are expected to complete required onboarding activities within the timelines communicated by HR. Access to certain systems may depend on completion of mandatory security training.

- Complete HR documentation.
- Complete required security awareness training.
- Review applicable employee policies.
- Obtain company credentials and equipment through approved processes.

4. Benefits Overview

Eligible employees may receive benefits including group health insurance, leave entitlements, professional development support, and business travel reimbursements subject to the applicable policies.

Benefit eligibility and limits are governed by the relevant policy documents. Employees should refer to the Leave Policy, Travel Policy, and Medical/Insurance Policy for detailed rules.

5. Leave Entitlements Overview

NovaTech provides different categories of leave to eligible employees. Casual Leave is intended for short-term personal requirements, while Earned Leave may be used for planned time away from work.

The detailed entitlement, carry-forward rules, medical requirements, and application process are defined in the Leave Policy.

- Casual Leave: 12 days per calendar year.
- Earned Leave: 15 days per year.
- Earned Leave may be carried forward up to 30 days.
- Casual Leave cannot be carried forward.

6. Business Travel Guidelines

Employees travelling for approved business purposes must follow the Travel Policy. Business travel expenses are reimbursed only when they are reasonable, business-related, approved, and supported by required documentation.

Employees must submit reimbursement claims within the specified deadline and retain original receipts where required.

- Obtain required travel approval before booking.
- Use approved booking channels where applicable.
- Maintain receipts for reimbursable expenses.
- Submit claims within seven working days of returning.

7. Grievance Redressal

Employees who have a workplace concern may raise the matter with their manager, HR representative, or designated grievance channel.

Employees are encouraged to provide factual information and supporting documentation when raising a concern. Retaliation for good-faith reporting of workplace concerns is not permitted.

8. Policy Awareness

Employees are responsible for familiarising themselves with policies relevant to their role. Policies may be updated periodically, and employees should use the latest approved version provided through official company channels.

Questions about policy interpretation should be directed to the responsible company function, such as HR, IT, Finance, Compliance, or Information Security.
